

UNITY UPDATE

As you are aware, there was a Unity meeting scheduled between the NYSCA and the Council on December 8, 2011. Unfortunately, both lobbyists were unavailable to attend this meeting and other scheduling conflicts, the meeting has been postponed until after January 1, 2012.

The Council has provided the attached “Foundational Tenets of Chiropractic” for our review for possible inclusion into the Bylaws and Constitution of the new unified organization. Please read them carefully and be prepared to discuss them at your next district meeting.

We are having a joint Legislative Day in Albany on February, 7, 2012 we will be providing busses for the trip. Your participation is needed to help us protect your right to practice Chiropractic in New York State.

Please contact the NYSCA office and check the website for details
